 Congrats Sun Devils! Something invaluable as you begin your college life is to begin to utilize ASU Career Services. They are awesome and great for you to start now. They offer workshops, webinars, resume writing assistance, interview preparation assistance including mock interviews, and they hold fantastic career fairs throughout the year. The services are free and available to students and alumni. Many companies maintain great relationships with ASU and job postings are always available on their site. I was their office everyday my last semester and found a great position soon after graduation. So check out their website and schedule an appointment to see an advisor. Good luck! less
