

career guide

resources for ASU online students

ASU Career Services offers a comprehensive on-line Career Guide designed to help you evaluate career options, learn about internships and launch your career. The Career Guide includes detailed information about cover letters and resumes, interviewing, business etiquette, portfolios, graduate school admission processes, effective job and internship search strategies and more. Visit The Career Guide at asu.edu/careerguide.

Virtual Advising

The Career Services office has career advisors available to meet with students to discuss their career development/job search strategies one-on-one. Online students may schedule phone appointments with the advisors. When calling the office, students should indicate that they are an online student and would like a phone appointment. Contact information can be found here: eoss.asu.edu/cs/hours.

Resume/Cover Letter Reviews

There are a couple of options for online students to have their resumes/cover letters reviewed virtually. First, they can schedule a phone appointment with an advisor and email their resume or cover letter ahead of time and do the review via phone. If they would like a quick resume review (resumes only), they can use the Resume Drop Box on our website (resumes are reviewed by our Career Peers). The link is on our homepage: asu.edu/career.

Webinars

Many of our workshops are hosted online as webinars. Students can find the list of upcoming webinars and how to join in at this link: eoss.asu.edu/cs/students/webinars. In addition, many of the webinars are recorded and archived on the same page so students can return to view them at their convenience.

Post-graduate Employment Statistics

For students curious about what type of job offers other ASU graduates have gotten, as well as aggregated salary information, internship info, and graduate school info, they can access the Grad Stats here: asu.edu/career/gradstats.

Online Resources

Career Services has compiled a comprehensive list of online resources to assist students with research and job preparation. The list can be found here: eoss.asu.edu/cs/students/helpfulLinks. Other highlighted resources include Goinglobal, which is a great online guide for students looking at working outside their home country, and **CandidCareer.com**, which is a compilation of informational interview-type videos. Both resources can be accessed on the Career Guide page: asu.edu/careerguide.

Online Chat

If students have a quick question about Career Services or resources, we offer a live chat online three hours per weekday. The link can be found on our homepage: asu.edu/career.

Sun Devil CareerLink - our university-wide online recruiting system

Students who are searching for an internship or full-time job can view and apply for job postings through Sun Devil CareerLink, which can be accessed from our homepage: asu.edu/career. Students login with their ASURite ID and password.

Social Media
