

Wednesday June 3rd, 2020

Dear Arizona State Community,

The National Pan-Hellenic Council at Arizona State University stands in solidarity with the Black Lives Matter Movement. We refuse to be silenced, our voices matter now more than ever. We are outraged by the unjust treatment of our brothers and sisters. We demand justice for our people.

We have seen countless unlawful killings of our unarmed Black people. We are tired of living in fear of becoming the next victim of police brutality. It is our duty to use our platform to speak out against the racial inequities present within our justice system. As faculty and students at one of the nation's largest predominantly white institutions, we challenge you to do the same. We are strongest when we are united, we must come together and advocate for equality. We shall continue to fight until we see profound change.

We send our deepest condolences to the families of George Floyd, Breonna Taylor, Sean Reed, Dion Johnson, David McAtee, and so many more. They deserve to see justice upheld for these senseless killings. It is our duty to continue to speak up, march, donate, and sign petitions. We are hopeful that our actions will spark a change that is long overdue.

As student leaders, we want to assure you that we are committed to supporting students. Please reach out if there are any concerns or questions you wish to voice. Stay strong and remember your voice matters.

Sincerely,

A handwritten signature in black ink that reads "Meron Mitiku".

Meron Mitiku

National Pan-Hellenic Council President
